

CURRENT COVID INFORMATION

The safety of our colleagues, partners and customers is our top priority.

We strictly adhere to the necessary measures and recommendations of the RKI and information from the World Health Organization (WHO)

Measures - INTERNAL

- 3 G rule and wearing a medical or FFP2 mask is required for personal contact.
- Vaccinated (fully)
- Recovered (no more than 6 months)
- Tested (certified rapid test)

- no touching, if possible keep a distance of 2 m from each other
- Hygiene measures must be observed, wash hands regularly and provided Use disinfectant.
- Our employees are vaccinated and boosted, for the benefit of the individual and for the community.

Availability may be restricted.

- We will do our best to maintain the ability to deliver.
- Nevertheless, we would also face problems in the event of renewed border closures and company closures.
- Our forwarding partners have also assured us that they have taken appropriate measures to prevent the spread of the corona virus.
- Due to the lack of truck loading space, however, shipment surcharges were levied and there may be delays in delivery times.
Shipment surcharges are not included in our offers and are subject to changes.
