

Information regarding the REACH Regulation

(Registration, Evaluation, Authorisation and Restriction of Chemicals/ regulation (EG) Nr.1907/2006)

The regulation governs the manufacture, marketing and dealing with industrial chemicals. Focus of regulation are a general registration requirement for all in the EU produced or imported substances with the European Chemicals Agency (ECHA European Chemicals Agency) the evaluation of these substances by the Member States of the EU and the further regulation of certain hazardous substances.

Manufacturers, importers and users must register their chemicals. The GHS label (Globally Harmonised System of Classification and Labelling of Chemicals) or CLP labeling (Classification, Labelling and Packaging of Substances and Mixtures) for mixtures according to EU1272/2008 (inkl.790/2009/EU) is compulsory from 01/06/2015.

The aim of this regulation is a high level of protection for human health and for the environment and to ensure the free movement of goods within the common European inland transport of chemical substances, mixtures and certain specific articles.

According to the REACH Regulation the safety data sheet remains the central communication medium of safety-related information on substances and mixtures in the consumer chain.

We assure that both our company and in cooperation with our suppliers, everything as been done to meet the requirements of the new chemicals regulation REACH.

The information contained in our safety data are correct and complete to the best of our knowledge. On our part we have to rely on our component suppliers, whether the substances are pre-registered and then registered later.

Substances, according to EINECS (European Inventory of Existing Commercial Chemical Substances) are pre-registered and we assume that these substances were registered until 31.05.2018, loud REACH regulation

We assure you that new known facts will implement in the prescribed manner.

If you have any questions, we are glad to assist you.
